1. Introduction to iNBuilt Solution

iNBuilt Solution is an alteration management solution, tailored specifically for apartment renovations in co-op and condos. Our mission is to empower you to efficiently manage the alteration review, streamline necessary project documentation, manage building infrastructure, and achieve your project goals.

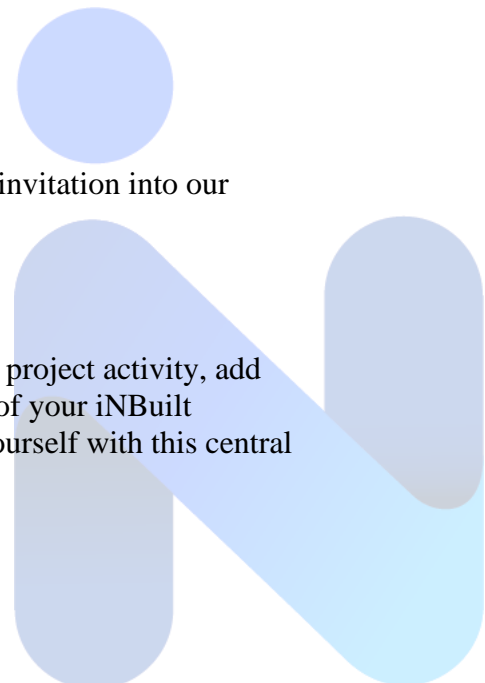

2. Getting Started

Let's get started with iNBuilt Solution:

- If you have been invited to the iNBuilt Solution network:
 - Visit our website at <https://inbuiltsolution.com/>
 - Click on "Access".
 - Login to setup your password.
- If you have not been invited to the iNBuilt Solution network:
 - Visit our website at <https://inbuiltsolution.com/>
 - Click on Get Free Trial and fill out your email.
 - A member of our team will contact you and then send an invitation into our network.

3. Navigating the Dashboard

Upon logging in, you'll arrive at your dashboard. Here, you'll find recent project activity, add properties button, and manage properties which takes you to a list of all of your iNBuilt properties, filings, violations, and active/inactive projects. Familiarize yourself with this central hub for project management.

4. Key Features and How to Use Them

iNBuilt Solution offers a range of features to support your construction projects. Here are some essential ones:

- **Project Collaboration:** Invite all project stakeholders by adding contributors.
- **Document Management:** Centralizes and stores all project review data.
- **Construction Visibility:** Allows project stakeholders to upload key documents and photos during construction to fulfill milestone requirements (pre/post demo, layout, waterproofing, final, etc) to ensure the integrity of the building's infrastructure.

Explore these features in detail with our video tutorials and guides.
